WORKING PAPERS

- On the Measurement of AI Skills: Methods and Implications (with Arun Rai and Yu-Kai Lin)
 - Rejected in the third round at *MIS Quarterly*; under revision for submission to *Information Systems Research* by October 2026
- IT Workforce Skill Architecture and Digital Innovation (with Arun Rai and Yu-Kai Lin)
 - Under review at *MIS Quarterly*
- Generative AI and Role Rebundling in Entry-Level Jobs (with Arun Rai and Yu-Kai Lin)
 - Planned submission to *MIS Quarterly* by December 2026
 - Completed: theoretical development, data construction, and preliminary draft; in progress: empirical analyses
- Human Capital Reconfiguration in the Privacy Regulation and AI Economy: The Emergence of Privacy-Preserving Jobs (with Andy Yang, Arun Rai, and Yu-Kai Lin)
 - Targeted at *MIS Quarterly – Special Issue on Ethics, Regulation, and Policy* (Submission Deadline: November 13, 2026)
 - Completed: theoretical development, data construction, and baseline analyses; in progress: heterogeneity analyses based on firm characteristics
- Driving Innovation with Computing Knowledge in Biotech: The Role of Founder Skills, VC Experience, and CRISPR-Cas9 (with Dael Um and Likoebe Maruping)
 - Targeted at *MIS Quarterly*
 - Completed: theoretical development, analyses, and full draft; in progress: robustness checks using Revelio Labs resume data in addition to LinkedIn profiles
- Facial Recognition Technology in Law Enforcement: Regulations, Crime Clearance, and Bias (with Heejin Joo)
 - Targeted at *ACM Transactions on Management Information Systems*
 - Completed: theoretical development, analyses, and full draft; in progress: analyses including extended National Incident-Based Reporting System (NIBRS) data
